Subject: Uber in SC

To Whom it May Concern,

I would just like to quickly say what a positive impact I think Uber has already made in South Carolina, but Charleston specifically.

I don't need taxis often, I try to always have a designated driver in the group if we are going out, or act as one myself. However, on the occasional nights we have tried to get a driver, it has been nearly impossible to get anyone in a descent time frame. I have waited for over an hour on multiple occasions and was told by different cab companies that they have no way of tracking their drivers, they can only wait for them to call and say they are coming to get me.

Uber has changed all of that. I know exactly how long my wait will be, I know who my driver is and their information before I ever get into the car. The entire process feels safer and easier. Payment is extremely user friendly and allows me to share the ride with friends so it's a better option when you're with a group as well. Taxis are always more expensive and if everyone doesn't have cash, one person gets stuck with the bill. Uber's payment options and easy tracking when ordering a ride makes everyone more likely to take a safe ride home instead of driving.

Please don't take this away from our state. We already have so many issues with drinking and driving in SC and I truly believe this is the best step we have taken towards reducing those numbers. If anything, we need to be promoting and raising awareness for Uber and how easy they make it to have a safe ride home.

Thank you for your time.

Subject: I support Uber

I am emailing to make my voice known that I am very disappointed in the cease and desist order for uber in South Carolina. The taxi and cab system in South Carolina is absolutely terrible. The fact that the commission is concerned about safety and insurance issues related to uber is ridiculous. The taxi providers in the state are mom and pop operations that have little to no insurance coverage and poorly trained drivers. Uber offers a clean, reliable service that far supercedes what is currently offered by city cab purveyors. I sincerely hope you will rescind your cease and desist order and allow uber to operate in the state. Thank you.

Sincerley,

Bart Yancey
Charleston, South Carolina

I support Uber and I hope you will too. It is not acceptable that Uber be banned from the state.

Subject: Reinstate Uber

Hello,

The traditional taxi service in the Charleston and North Charleston area is incredibly unreliable and, for the most part, are primarily old Ford Crown Victoria's that appear to be falling apart. I would invite you to come experience this for yourself the next time that you're in town - my treat.

My experience with Uber in South Carolina and elsewhere has always been positive, friendly and safe.

I believe that your cease and desist order against Uber harms the residents of our state by taking away a very positive and safe service and forces us to use old retired police cruisers driven by a sketchy cast of characters.

Please approve Uber for us!

Best regards,

Marc Bernard
